# TERMS & CONDITIONS

By signing and completing this form you are hereby authorizing ServiceOne to draft the monthly investment from your debit/ credit card. You are also agreeing that you fully understand that the monthly fee(s) will continue until a written notice of termination is received by us from you. If the membership is terminated prior to the 1-year cycle, any visits already performed under the ClubOne membership will be due (if monthly fees have not covered it). Discounts received will be reversed and may be due upon termination. Please allow up to 2 weeks for termination processing.

You are entitled to two heating and air maintenance service visits per year. ServiceOne will provide notification prior to the visit month to schedule the ClubOne visit. However, it is your responsibility to return any missed calls or emails, to ensure your maintenance or inspection appointment is scheduled. The maintenance included with your ClubOne membership is intended to maintain the efficient operation of your heating and air conditioning units. The maintenance excludes any repairs, recharging of refrigerant, or major cleaning needed that may be discovered by the technician and not covered by this agreement. Additional charges may apply for repairs and/or cleaning, as well as the cost of parts and labor not covered by this agreement and recommended by the technician. No work that involves an additional fee will be performed without client consent.

Your ClubOne Membership and savings are transferable if needed to either the buyer of your current home or your new home in our service area. This ClubOne Agreement only extends coverage and maintenance to the listed equipment.
